Mahjong, a captivating tile-based game with roots in China, has captivated players for centuries. Its intricate gameplay, strategic depth, and social appeal make it a beloved pastime worldwide. If you're a beginner looking to dive into the world of Mahjong, you've come to the right place. This comprehensive guide will provide you with all the tools you need to master the basics and start forming winning combinations.

The Basics of Mahjong: Understanding the Tiles and Setup

Mahjong involves 144 tiles, each featuring unique symbols and characters. The tiles are divided into three main categories: • Suits: Bamboo (1-9), Characters (1-9), and Circles (1-9). Each suit has four identical tiles, making a total of 36 tiles for each suit. • *Winds*: East,

South, West, and North. There are four of each wind tile. • **Dragons:** Red, Green, and White. There are four of each dragon tile. In addition to the above, there are also four special tiles called "Flower" and "Season" tiles, which are usually not used in gameplay. **Setting up the Game:** 1. **Shuffle:** All 144 tiles are thoroughly shuffled face down. 2. **Deal:** Each player receives 13 tiles, with the remaining tiles forming the "wall" in the center of the table. 3. **Discard Pile:** A space is designated as the "discard pile" where players will place their discarded tiles.

The Objective of the Game: Winning with a Winning Hand

The ultimate goal in Mahjong is to form a winning hand, which consists of 14 tiles arranged in specific combinations. These combinations are called "melds" and can be categorized as follows: • **Pungs:** Three identical tiles. • **Kongs:** Four identical tiles. • **Chows:** Three consecutive tiles of the same suit. • **Pairs:** Two identical tiles. • **Eyes:** A pair of identical tiles (required for every winning hand). To win, a player needs to achieve one of the following: • **Winning a Hand:** Form a winning hand with 14 tiles, including a pair (eyes) and at least one of the other melds (pungs, kongs, chows). • **Winning by "Kong" (Four of a Kind):** If a player is able to form a Kong (four of a kind) and has a complete hand, they can immediately win the game. • **Winning by "Robbing the Kong":** When a player declares a Kong, other players can attempt to "rob" the Kong by matching the tile. If successful, they win the game.

Understanding the Gameplay: Turns and Actions

• **Drawing:** At the beginning of their turn, each player draws a tile from the wall. • **Discarding:** After drawing a tile, the player must discard one tile face up on the discard pile. • **Matching and Melds:** Players can match discarded tiles to form melds (pungs, kongs, chows) or use them to complete their hand. • **"Calling" Tiles:** Players can "call" tiles from the discard pile if they can form a meld with them. This can be done by calling out the type of meld they are attempting to form. • **"Kong" Declaration:** If a player draws a tile that completes a Kong, they must declare the Kong and add the tile to their hand.

The Importance of Strategy: Winning Tactics

Mahjong is not simply a game of chance. It requires strategic thinking and careful planning to maximize your chances of winning. Here are some key strategies to consider: • **Anticipating Opponents' Hands:** By observing their discards and actions, you can gain insights into their possible hands and strategies. • **Building Melds Early:** It's beneficial to start building melds as early as possible to create a strong base for your hand. • **Controlling the Discard Pile:** By discarding strategic tiles, you can influence the available tiles for your opponents. • **Analyzing the Wall:** The remaining tiles in the wall provide clues about the availability of certain tiles, which can be helpful in planning your strategy.

Unveiling the Mystery: What Exactly is Mahjong?

At its core, Mahjong is a tile-based game, often described as a blend of rummy and poker. It originated in China in the 19th century and has since spread its wings across the globe, adapting in various forms and rulesets. The most common version involves four players, though variations exist. The ultimate goal? To be the first to form a complete set of melds (combinations of tiles) and declare "Mahjong!"

The Essential Toolkit: Mahjong Tiles Explained

Before we dive into the gameplay, let's get acquainted with the stars of the show: the tiles. A standard Mahjong set typically consists of 144 tiles, divided into several suits and categories:

1. **Suits:**

1. **Bamboos (Suǒ):** These tiles are adorned with bamboo stalks. They are numbered from 1 to 9, with each number having four identical tiles. The 1 Bamboo is often depicted as a bird.
2. **Characters (Wàn):** These tiles feature Chinese characters representing numbers. Again, you'll find tiles numbered 1 to 9, with four of each.
3. **Circles (Tóng):** These are simpler tiles, often appearing as red or blue circles, numbered 1 to 9. Each number has four identical tiles.

2. **Honors:** These are special tiles that don't belong to any numerical suit.

1. **Winds:** There are four Wind tiles: East, South, West, and North. Each has four identical tiles.
2. **Dragons:** There are three Dragon tiles: Red Dragon, Green Dragon, and White Dragon. Each has four identical tiles.
3. **Flowers and Seasons (Optional):** Some sets include these decorative tiles. They are usually considered bonus tiles and don't form part of a player's hand unless specific rules are in place. We'll focus on the core game for now, but it's good to know they exist.

It's crucial to understand that in most variations, you'll be looking for sets of three or four identical tiles, or sequences of three tiles within the same suit.

Setting the Stage: Preparing for Your First Mahjong Game

Before the tiles start flying, there are a few essential steps to get your game ready:

Dealing the Tiles: The Foundation of Play

Dealing in Mahjong is a ritual. Typically, players roll dice to determine the East wind player (the dealer for the first round). The dealer then shuffles the tiles by sweeping them face down across the table. The tiles are then built into walls, usually four walls of 18 tiles each. The dealer breaks the wall at a designated spot (often determined by dice rolls) and players draw their initial hands.

Your Starting Hand: The Building Blocks of Victory

Each player draws 13 tiles to form their starting hand. The East wind player draws an extra tile, giving them 14. The aim is to arrange these tiles into specific combinations, or "melds," to achieve a winning hand.

The Heart of the Game: How to Play Mahjong

Now for the exciting part – the gameplay itself! Mahjong is played in rounds, and the goal of each round is to be the first to form a complete hand.

Your Turn to Shine: The Mahjong Turn Cycle

Play proceeds clockwise around the table. On your turn, you have two main options:

1. **Draw a Tile:** You must start your turn by drawing a tile from the wall (the face-down pile). If you're the East wind player, you start with 14 tiles and discard one after drawing to maintain a hand of 13.
2. **Discard a Tile:** After drawing, you must discard one tile from your hand, placing it face up in the center of the table. This is where strategy comes in – what you discard can give clues to your opponents about your hand.

The Art of the Meld: Building Your Winning Hand

While drawing and discarding, you'll be looking to form "melds." These are the building blocks of your winning hand. There are several types of melds:

1. **Pung (Péng):** Three identical tiles. For example, three 5 Bamboos.
2. **Kong (Gāng):** Four identical tiles. A Kong is a more powerful meld than a Pung and can be declared in different ways (we'll cover this later).
3. **Chow (Chǎo):** A sequence of three consecutive tiles of the same suit. For example, 2, 3, 4 Circles. Note that Winds and Dragons cannot form Chows.

Calling for Tiles: Interrupting the Flow

This is where Mahjong gets really dynamic! If a discarded tile by another player can complete a meld for you, you have the option to "call" for it. This allows you to take the tile out of turn, but it also reveals your intention.

1. **Mahjong! (Huā):** If a discarded tile completes your entire hand into a winning set, you can call "Mahjong!" This is the ultimate goal.
2. **Kong (Gāng):** If a discarded tile gives you four identical tiles, you can call "Kong." This usually involves exposing the four tiles and then drawing a replacement tile from the wall.
3. **Pung (Péng):** If a discarded tile completes a Pung for you, you can call "Pung." You then expose the three tiles and discard one from your hand.
4. **Chow (Chǎo):** If a discarded tile completes a Chow for you, you can call "Chow." You then expose the three tiles and discard one from your hand. However, Chows can only be called from the player immediately to your left.

Important Note on Calling: The order of precedence when calling for a discarded tile is crucial. "Mahjong!" takes priority over everything else. Then comes "Kong" and "Pung" (which can be called from any player). "Chow" has the lowest priority and can only be called from the player to your left. If multiple players can call for the same tile, the player with the higher priority (or the player closest to the discarder in the clockwise direction for Pung/Kong) gets to take it.

The Final Countdown: Winning the Round

The round ends when a player declares "Mahjong!" This typically happens when they have formed a hand of 14 tiles consisting of four melds and a pair (two identical tiles). The structure of a winning hand often involves four Pungs or Kongs and a pair, or specific scoring combinations depending on the ruleset.

Beyond the Basics: Essential Mahjong Strategies for Beginners

While understanding the rules is the first step, developing a good Mahjong strategy will elevate your game. Here are some tips for beginners:

Understanding Your Hand: What to Keep, What to Let Go

As you draw tiles, constantly assess your hand. Which tiles are helping you form melds? Which are dead weight? Don't be afraid to discard tiles that don't seem to be contributing to a winning hand, even if they are part of a suit.

Reading Your Opponents: Subtle Clues and Strategic Discards

Pay attention to the tiles your opponents discard and the tiles they call. This can reveal what they are trying to build. Conversely, think carefully about what you discard. If you have many tiles of a certain

suit, discarding a tile from that suit might be too obvious. Consider discarding "safe" tiles that are less likely to be useful to others.

The Power of the Pair: Don't Neglect Your Eyes

Remember, a winning hand usually requires a pair. As you form melds, keep an eye out for potential pairs that can complete your hand.

When to Go for the Win: Knowing When to Push and When to Fold

Sometimes, your hand just isn't coming together. In such cases, it might be wiser to play defensively, trying to prevent others from winning, rather than forcing a win with a weak hand.

Mahjong Variations: A World of Differences

It's important to note that Mahjong isn't a monolithic game. There are numerous variations, each with its own nuances. Some popular ones include:

1. **Chinese Classical Mahjong:** Often considered the purest form.
2. **Japanese Mahjong (Riichi Mahjong):** Features a "Riichi" declaration, similar to going "all in" in poker, and specific scoring rules.
3. **American Mahjong:** Uses a card with specific hands to be achieved, and jokers are often included.

4. **Hong Kong Mahjong:** Known for its fast-paced gameplay and emphasis on certain scoring combinations.

For beginners, it's best to start with a simplified version or one that your friends or family play. Once you're comfortable, you can explore other variations.

Your Mahjong Journey Begins Now!

Learning Mahjong can seem daunting at first, but with a little patience and practice, you'll be clicking and declaring "Mahjong!" in no time. The best way to learn is to jump in and play! Don't be afraid to ask questions, make mistakes, and most importantly, have fun. This ancient game offers a unique blend of strategy, social interaction, and mental stimulation. So gather some friends, set up the tiles, and embark on your exciting Mahjong adventure!

Mastering Mahjong: A Comprehensive Guide for Beginners

Mahjong, a timeless tile-based game rooted in Chinese tradition, has captivated players across generations with its blend of strategy, memory, and intuition. For newcomers eager to dive into this rich cultural pastime, understanding how to play mahjong is the first step toward unlocking its enduring appeal. This article offers a holistic introduction for beginners, exploring the game's fundamentals, key insights, practical applications, and the evolving future of mahjong in both traditional and digital spaces.

Understanding the Basics of Mahjong

At its core, mahjong is played with a set of 136 tiles divided into four main categories: pips, suits, honors, and wild tiles. Each suit represents a different aspect—diamonds (pips), bamboo (pips with 3 or 9), and character tiles (representing winds and dragons). Players form sets and pairs by matching these tiles, aiming to clear the table without relying on wild tiles, which are used selectively to fill gaps. The objective varies slightly depending on regional rules—such as Beijing, Canton, or Japanese mahjong—but the essence remains centered on tactical tile matching and strategic planning. A standard game begins with a dealer distributing a fixed number of tiles, usually 34, and players then take turns drawing and discarding until one completes a complete hand. Success hinges not only on luck but on sharp observation, memory retention, and the ability to anticipate opponents' moves—skills that sharpen with practice.

Key Insights for New Players

For those just starting, one of the most important lessons is mastering tile recognition and organization. The playing area, typically a grid of tiles, requires careful scanning to track available tiles, identify potential sets, and remain aware of discarded pieces. Beginners should learn how to form three-of-a-kind in any suit or pair, as well as the crucial “kong”—a full set of three or four identical tiles, which can dramatically shift the game’s momentum. Another vital insight is the importance of discarding wisely. While it may be tempting to hoard powerful tiles, thoughtful discards can eliminate obstacles, block opponents, and increase your chances of winning. Players who grow in skill learn to balance aggression with caution, adapting their tactics based on the evolving flow of the game.

Practical Applications and Benefits of Learning Mahjong

Beyond entertainment, learning mahjong offers tangible cognitive and social benefits. The game enhances memory, concentration, and logical reasoning—skills that extend far beyond the table. Many find it a meditative practice, where focused attention fosters mindfulness and reduces stress. Socially, mahjong is inherently communal; whether played in family gatherings, casual meetups, or community centers, it encourages connection, conversation, and shared experiences across generations and cultures. In recent years, mahjong has also found new relevance in educational settings, with schools and cultural programs incorporating it to teach strategy, pattern recognition, and cultural heritage. Its adaptability makes it a bridge between tradition and modernity, encouraging players to preserve heritage while exploring new ways to engage.

The Future of Mahjong: From Tradition to Digital Innovation

As the world embraces digital transformation, mahjong is undergoing a dynamic evolution. Online platforms, mobile apps, and virtual tournaments now allow players from around the globe to compete and connect, breaking geographical barriers and expanding the game's reach. These digital versions often preserve core gameplay while introducing innovative features—such as AI opponents, real-time analytics, and social integration—that deepen engagement and accessibility. Looking ahead, the integration of augmented reality, immersive storytelling, and AI-driven coaching promises to make learning mahjong more intuitive and enjoyable for newcomers. At the

same time, the enduring charm of face-to-face play ensures that the human element remains central. As mahjong continues to blend tradition with technology, it stands as a vibrant example of how timeless games can thrive in a modern, globalized world. For the beginner, the journey into mahjong is more than mastering rules—it's about embracing a rich cultural tradition, sharpening the mind, and discovering the joy of strategic play. With patience and practice, anyone can learn to play, grow with the game, and unlock its timeless appeal.

The Allure of Mahjong: More Than Just Tiles

Mahjong is a game of skill, strategy, and a touch of luck, played by four players. It's a social game, often enjoyed in casual settings, but also boasts competitive circuits and online platforms. Its rich history and cultural significance add another layer to its appeal, making it a fascinating pastime that transcends age and background. Many are

drawn to its unique visual aesthetic, the intricate designs on the tiles, and the engaging mental workout it provides. Mastering **mahjong for beginners** is the first step to unlocking this world.

Understanding the Mahjong Tiles: Your Essential Toolkit

At the heart of Mahjong lie its diverse set of tiles. For beginners, it's crucial to familiarize yourself with these components. A standard Mahjong set typically comprises 144 tiles, divided into several categories. Let's break them down:

Suits: The Building Blocks of Your Hand

There are three main suits, each with 36 tiles numbered from 1 to 9:

1. **Bamboos (Suǒzi - 索子):** Often depicted as bamboo sticks, this suit is visually striking. The '1 Bamboo' is famously represented by a single, iconic bird.
2. **Characters (Wànzì - 萬子):** These tiles feature Chinese characters representing numbers or coins, hence the name "Wan" (ten thousand).
3. **Dots (Tǒngzi - 筒子):** Depicting circular dots, these are perhaps the most straightforward suit for new players to recognize.

Each of these suits has four identical tiles for each number (1 through 9). So, you'll find four '1 Bamboos', four '5 Characters', and four '8 Dots', and so on.

Winds: Navigating the Four Directions

The four winds represent the cardinal directions:

1. **East (Dōng - 東)**
2. **South (Nán - 南)**
3. **West (Xī - 西)**
4. **North (Běi - 北)**

There are four identical tiles for each wind, totaling 16 wind tiles.

Dragons: The Powerful Embellishments

The three dragons are powerful and sought-after tiles:

1. **Red Dragon (Zhōng - 中)**
2. **Green Dragon (Fā - 發)**
3. **White Dragon (Bái Bān - 白邊)** - Often represented by a blank tile or a tile with a white frame.

Like the winds, there are four identical tiles for each dragon, making 12 dragon tiles in total.

Flowers and Seasons: Bonus Tiles (Optional)

Many Mahjong sets include a set of Flower tiles and Season tiles. These are often considered bonus tiles and are not always used in standard gameplay, but they can add an extra dimension. Typically, there are four flower tiles (Plum Blossom, Orchid, Chrysanthemum, Bamboo) and four season tiles (Spring, Summer, Autumn, Winter). Each of these is unique, meaning there's only one of each, for a total

of 8 bonus tiles. Their inclusion and scoring can vary by regional rules, so it's important to clarify this before starting a game. For **learning mahjong**, it's often best to start without these.

The Objective of the Game: Forming a Winning Hand

The ultimate goal in Mahjong is to be the first player to form a complete, winning hand, known as a **Mahjong** or **Hu** (胡). A standard winning hand consists of 14 tiles. These 14 tiles must be arranged into specific combinations:

Melds: The Building Blocks of a Winning Hand

A winning hand is typically composed of four melds and one pair. There are three types of melds:

1. **Pung (Péng - 碰):** Three identical tiles. For example, three '7 Dots' or three 'East Winds'.
2. **Kong (Gāng - 杠):** Four identical tiles. This is essentially an extended Pung. A Kong adds an extra tile to your hand, making it 15 tiles temporarily, and it also scores additional points.
3. **Chow (Chī - 吃):** Three consecutive tiles of the same suit. For example, a '3', '4', and '5' of Bamboos, or a '9', '1', and '2' of Characters (though this latter combination is not possible with standard numerical sequences). Chows are the most common meld type but are limited to the suit tiles (Bamboos, Characters, Dots). You cannot form a Chow with Winds or Dragons.

The Pair: Completing the Hand

The final element of a winning hand is a pair, which consists of two identical tiles. For example, two 'Red Dragons' or two '2 Characters'.

Putting it All Together: The Winning Hand Structure

A typical winning hand for beginners will look like this: **four melds (which can be a combination of Pungs, Kongs, and Chows) and one pair**. This makes a total of 4 melds x 3 tiles/meld + 1 pair x 2 tiles = 14 tiles. This foundational understanding is key to **how to play mahjong step by step**.

The Gameplay Flow: From Dealing to Winning

Once you understand the tiles and the objective, you're ready to learn about the gameplay itself. While specific rules can vary significantly by region and even by group, the general flow of a Mahjong game is consistent.

Dealing the Tiles: Setting the Stage

At the start of each round (or "hand"), tiles are shuffled thoroughly face down. Players then "build walls" of tiles, typically 18 tiles across and 2 tiles high. A specific tile is chosen to break the wall, and then 13 tiles are dealt to each player. The dealer (East wind) receives an extra tile, starting with 14 tiles.

The Turn: Drawing and Discarding

Play proceeds clockwise around the table. On a player's turn, they must first draw a tile. This can be from the wall (the most common action) or from a discard by another player (more on this below). After drawing, if the player has a winning hand, they can declare Mahjong. If not, they must discard one tile face up into the center of the table, making it available to other players. This discard marks the end of their turn.

The Art of the Discard: Strategy and Observation

Your discard is not just about getting rid of an unwanted tile; it's a strategic move. Observing what others discard can give you clues about their hands. Conversely, discarding a tile that another player needs can be a risky but potentially rewarding strategy. This is where the **strategy in mahjong** truly begins to shine.

Calling for Discards: Enhancing Your Hand

This is where Mahjong becomes truly interactive. When a player discards a tile, other players can "call" for it to complete a meld. The order of priority for calls is crucial:

1. **Mahjong:** If any player can declare Mahjong with the discarded tile, they do so immediately, and the hand ends.
2. **Kong (Gāng):** If no one can declare Mahjong, but a player can form a Kong with the discard (four identical tiles), they can call "Kong." This typically involves revealing the four tiles, placing the Kong to the side, and then drawing a replacement tile from the

wall.

3. **Pung (Péng):** If no one can form a Kong, but a player can form a Pung with the discard (three identical tiles), they can call "Pung." They then reveal the three tiles, placing them face up in front of them, and immediately discard a tile, effectively skipping their next turn to take the discarded tile.
4. **Chow (Chī):** If no one can form a Pung or Kong, a player can call "Chow" for a consecutive sequence of three tiles. This is the lowest priority call. The player reveals the three tiles, places them face up, and then discards a tile. Importantly, a Chow can only be formed with the discard of the player directly to your left. You cannot Chow a discard from any other player.

When multiple players can call for a discard, the highest-priority call takes precedence. For example, if one player can declare Mahjong and another can Pung, the Mahjong declaration wins.

Common Beginner Mistakes and How to Avoid Them

Even with a solid understanding of the rules, beginners can stumble. Here are some common pitfalls and how to navigate them:

Over-reliance on Specific Tiles:

Don't get fixated on one particular hand or tile. Be flexible and adapt your strategy based on the tiles you draw and the discards you observe. **Learning mahjong rules** means embracing adaptability.

Ignoring Opponents' Discards:

Your opponents' discards are valuable intel. If someone repeatedly discards tiles from a particular suit or number, it suggests they aren't building a hand with them, or they might be waiting for a specific combination. Pay attention!

Forgetting the Pair:

It's easy to get caught up in forming melds, but remember that a winning hand requires a pair. Ensure you're not discarding your only potential pair.

Unnecessary Risk-Taking:

Especially when starting, avoid aggressive plays like discarding a tile that another player might need for a Pung or Kong unless you have a very strong reason. Focus on building your own hand first.

Where to Play Mahjong: From Online to In-Person

The beauty of Mahjong is its accessibility. You don't need a special venue to start playing. Here are some popular options:

Online Mahjong Platforms:

Numerous websites and apps offer online Mahjong, catering to various rule sets and skill levels. This is an excellent way for beginners to practice, learn from others, and experiment without the pressure of a

live game. Search for "online mahjong" and you'll find a wealth of options.

Mahjong Clubs and Meetups:

Many cities have Mahjong clubs or casual meetups. These are fantastic for learning from experienced players in a friendly environment. They often have sets available and can guide you through your first few games, explaining specific regional rules you might encounter.

Playing with Friends and Family:

The most common and often most enjoyable way to learn Mahjong is with friends or family who already play. They can patiently guide you, answer questions, and make the learning process fun and engaging. This is often the first step for many in understanding **how to play mahjong for beginners**.

Beyond the Basics: Advanced Strategies and Scoring

Once you've mastered the fundamentals of forming a Mahjong hand, you'll discover a deeper layer of strategy and scoring. Many Mahjong variants include point systems that reward specific hands and combinations. These can include:

1. **All Pungs (Duān yī sè - 四四四):** A hand composed entirely of Pungs.
2. **All Chows (Qīng yī sè - 三三三):** A hand composed entirely of tiles from a single suit.

3. **Seven Pairs (Qī duì - 七對):** A hand consisting of seven unique pairs.
4. **Robbing the Kong:** A strategic play to steal a Kong from an opponent.

Each of these, and many more, can significantly increase your score. Understanding these scoring elements adds a crucial dimension to the game and is a vital part of **learning advanced mahjong**.

The Importance of Regional Rules:

It's crucial to note that Mahjong has many regional variations, particularly in scoring and specific tile combinations that are worth more points. For example, Japanese Mahjong (Riichi Mahjong) has a distinct set of rules and scoring compared to Chinese Official (MCR - Mahjong Competition Rules) or American Mahjong. Always clarify the rules of the game before you begin playing with a new group. This is a vital tip for anyone interested in **mahjong for beginners**.

Conclusion: Embark on Your Mahjong Adventure

Learning how to play Mahjong might seem daunting at first, but by breaking it down into manageable steps – understanding the tiles, the objective, and the gameplay flow – you'll find yourself playing with confidence surprisingly quickly. Questions & Answers About mahjong

how to play beginners

N o	Question	Answer
1	What are the absolute basics I need to know to start playing Mahjong?	Mahjong is played with tiles featuring symbols and characters. The goal is to form sets of tiles (melds) and be the first to declare 'Mahjong' with a winning hand. You'll need to learn about different tile types, scoring, and basic hand formations.
2	How do I know which tiles are which in Mahjong?	Mahjong tiles generally fall into three suits: Circles (dots), Bamboo (sticks), and Characters (ideographs). There are also Honor tiles (Wind and Dragon tiles) and Flower/Season tiles (often optional). Familiarize yourself with the visual patterns and symbols for each.
3	What's the most common way to win a Mahjong hand?	The most common winning hand involves forming four sets (three of a kind or a run of three) and one pair. There are many variations and more complex hands, but this is a great starting point for beginners.
4	How do I get tiles in Mahjong?	Play starts with each player receiving a set number of tiles. Then, players take turns drawing a tile from the wall (a stack of face-down tiles) or picking a discarded tile from the table. After drawing, you must discard one tile face-up.

5	What's the deal with 'pung', 'kong', and 'chow' in Mahjong?	These are melds: 'Pung' is three of the same tile, 'Kong' is four of the same tile, and 'Chow' is a sequence of three consecutive tiles of the same suit. These are how you build your winning hand.
6	Do I need to know how to score before I play my first game?	While understanding scoring is important for advanced play, don't let it stop you from playing! Focus on learning the basic gameplay and forming sets. Many beginner games are played with simplified scoring or no scoring at all initially.
7	What's the difference between American Mahjong and Chinese Mahjong?	The biggest differences lie in the rules for forming hands and scoring. American Mahjong uses a card with specific winning hands each year, while Chinese Mahjong has a more fluid scoring system and a wider variety of recognized hands.
8	Are there any 'must-have' tiles that beginners should look out for?	Often, beginners are advised to aim for hands with lots of one suit or with pairs of Honor tiles. Focusing on building strong sets with readily available tiles is a good strategy.
9	Where's the best place to learn Mahjong online?	Many websites and apps offer free online Mahjong games with tutorials, AI opponents, and even live multiplayer. Searching for 'online Mahjong for beginners' will give you plenty of options to practice and learn at your own pace.
