Section 1: Mastering the Fundamentals

Before tackling complex characters, understanding basic shapes is crucial. Cartooning often uses simplified forms to quickly convey personality and emotion. We'll start with the building blocks: circles, ovals, and lines. **(Image: Simple shapes like circles, squares, and triangles used as basic forms)** **1. The Head:** Imagine a circle or a slightly flattened oval. This forms the base of your character's head. Adjust the shape to create different head types (round, elongated, etc.). **2. The Body:** Use a simple oval or a series of ovals to create the body's shape. The torso and limbs can be made from connecting these shapes with lines. **3. The Limbs:** Represent arms and legs as simple, elongated lines or cylinders. The position of these limbs, and the angles at which they connect to the body, greatly influence the pose and dynamic of your character. **(Image: Examples of various head and body shapes)**

Section 2: Cartooning Features – Exaggeration and Style

One of the hallmarks of cartooning is the deliberate exaggeration of features. Instead of precise anatomical accuracy, cartooning prioritizes impact and personality. **(Image: Examples of exaggerated eyes, noses, and mouths)** **1. Eyes:** Large, expressive eyes are common in cartoons. Their shape, size, and expression can convey a wide range of emotions. Think of ways to make your eyes unique and fun. **2. Nose:** Represent noses as simple shapes – a triangle, a rounded wedge, or even a stylized curve. Notice how the nose shape enhances the overall character's personality. **3. Mouth:** Open mouths can indicate surprise or laughter, while closed mouths can suggest concentration. Cartoon mouths are often simplified yet impactful. **4. Hair:** Hair can be drawn in simple strands or stylized shapes. Experiment with different hairstyles and textures to make your character unique. **(Image: Examples of various exaggerated facial features)**

Section 3: Posing and Action – Bringing Characters to Life

3.1 Getting into a Pose: Once the basic form is established, consider the character's pose. How is the character moving or reacting? A dynamic pose can bring the character's personality to life. **(Image: Examples of various poses –**

standing, jumping, running, etc.) **3.2 Showing Action with the Body:** The way a character moves and interacts is crucial. Use exaggerated limbs and body language to convey the action in a clear and entertaining way. **3.3 Creating a Scene and adding details:** The background of a drawing should complement the character. Use simple shapes for environments or objects to create a cohesive scene.

Drawing cartoons isn't about perfect anatomical accuracy. It's about capturing personality, emotion, and movement through simplified shapes and exaggerated features. The beauty of cartooning lies in its freedom! So, let's ditch the pressure and have some fun.

Why Learn to Draw Cartoon People?

Before we dive into the "how," let's chat about the "why." Learning to draw cartoon people can be more than just a hobby. It can: **Boost Creativity:** It's a fantastic outlet for imagination. **Improve Observation Skills:** You'll start noticing how real people move and express themselves, which actually helps with cartooning. **Develop Storytelling:** Characters are the heart of any story. **Provide a Sense of Accomplishment:** Seeing your creations come to life is incredibly satisfying! **Be a Relaxing and Fun Activity:** In our busy lives, a little creative escape is gold.

The Essential Tools for Your Cartooning Journey

You don't need a fancy art studio to start. Here's what you'll need: **Paper:** Any kind will do! Sketchbook paper, printer paper, even the back of an old envelope. **Pencils:** A standard HB pencil is perfect for sketching. You might also want a softer pencil (like a 2B) for darker lines later. **Eraser:** A good quality eraser is your best friend for fixing mistakes. Kneaded erasers are great for lifting graphite without damaging the paper. **Optional:** Fine-liner pens or markers: Once you're happy with your pencil sketch, these are great for inking your lines.

The Foundation: Understanding Basic Shapes

The secret to drawing almost anything, including cartoon people, lies in breaking them down into simple geometric shapes. Think circles, ovals, squares, and triangles. Cartoon characters are often built from these fundamental forms.

Step 1: The Head – The Center of Expression

Every cartoon character starts with a head. The head is where you'll convey a lot of personality.

Drawing a Basic Cartoon Head Shape

1. **Start with a Circle:** Lightly sketch a circle. This will be the general shape of your character's head. 2. **Add the Chin:** Most cartoon heads aren't perfect circles. Add a chin by drawing a curved line from the bottom of the circle, creating a slightly pointed or rounded chin. Think of an inverted "U" shape attached to the bottom of the circle. You can make this chin very sharp for an angular character or quite rounded for a soft one. 3. **Establish Guidelines:** Draw a vertical line down the center of the circle and a horizontal line across the middle. These are your guideline to help place facial features symmetrically. You can adjust the horizontal line higher or lower to change the proportion of the forehead versus the chin.

Variations in Head Shapes

Don't limit yourself to one head shape! Try:

- Oval heads:** Good for friendly, approachable characters.
- Square heads:** Can make characters look sturdy, tough, or a bit grumpy.
- Heart-shaped heads:** Often used for cute or romantic characters.
- Triangle heads:** Can suggest a mischievous or cunning personality. Experiment by drawing various combinations of circles, squares, and curves to create different head silhouettes.

Step 2: The Body – Building the Form

Once you have your head, it's time to attach a body. Cartoon bodies are often simplified and can be very expressive.

Basic Cartoon Body Construction

1. **The Torso:** For a basic body, draw a simple shape like a rectangle, an oval, or a rounded triangle below the head. This shape represents the torso. For a more "cartoony" feel, you can exaggerate these shapes. A very wide torso can make a character look strong, while a narrow one might suggest they are thin or a bit weak. 2. **Connecting the Head and Body:** Connect the head to the torso with a short, thick neck. Again, you can exaggerate this. A thick neck can make a character look powerful, while a thin neck can make them look a bit awkward or delicate. 3. **Shoulders:** Draw two curved lines extending from the top of the torso to represent shoulders. These can be broad and straight for a more masculine look, or softer and sloped for a feminine or more relaxed character.

Simple Body Types to Try

- The Pear Shape:** A narrower head, wider torso that tapers down. Great for friendly, cuddly characters.
- The Rectangle/Square Shape:** A more blocky, solid build. Good for strong, stoic, or comical characters.
- The Hourglass Shape:** Classic for female characters, but can be stylized for any gender.
- The Stick Figure Plus:** For a very simple, minimalist cartoon, you can literally use thin lines for arms and legs attached to a basic torso.

Step 3: The Limbs – Adding Movement and Pose

Arms and legs are crucial for conveying action and personality.

Drawing Cartoon Arms and Legs

1. **Simplified Segments:** Think of limbs as being made of simple shapes, often cylinders or rounded rectangles. A common way to draw arms and legs is by dividing them into two segments: upper and lower. 2. **Joints:** Connect these segments at the elbow and knee. You can represent joints with simple circles or just by continuing the curve of the segments. 3. **Hands and Feet:**

- Hands:** For beginners, simplify hands. Draw a mitten-like shape for a closed hand, or a few simple lines radiating from the wrist to suggest fingers. You can even just draw a blob with a thumb.
- Feet:** Cartoon feet can be simple ovals, rounded rectangles, or even just stylized shoe shapes. Think about the character's personality: big, clunky shoes for a clumsy character, or sleek, pointed shoes for a more elegant one.

 4. **Posing:** This

is where the fun begins! Don't just draw limbs hanging straight down. Bend them! * Arms can be akimbo (hands on hips), crossed, reaching out, or holding something. * Legs can be bent, one forward, one back, crossed, or even jumping. * Consider adding a slight bend to the knees even when the legs are mostly straight to make the character look more natural and less stiff.

Step 4: The Face – The Soul of the Character

This is where your cartoon person truly comes alive!

Essential Facial Features

Eyes: The windows to the soul, even in cartoons! **Simple Dots or Circles:** The easiest way to start. Vary the size and spacing for different expressions. **Ovals/Almonds:** Add a bit more shape. **Pupils:** A small dot or circle inside the eye shape. You can make the pupil large to show surprise or fear, or small for suspicion. **Eyebrows:** Crucial for expression! Arched eyebrows can show surprise or worry. Straight eyebrows can indicate seriousness. Angled eyebrows can convey anger or confusion. **Nose:** Often very simplified in cartoons. **A Dot:** The simplest option. **A Small Curve:** Suggests a nose without much detail. **A Triangle:** For a more defined, angular nose. **Mouth:** Another key to expression. **A Simple Line:** Can be straight for neutral, curved up for a smile, or curved down for a frown. **A "C" or "D" Shape:** For a more open mouth, like speaking or yelling. **Exaggerated Smiles:** Wide grins showing teeth. **Wide-Open Mouths:** For shock or surprise.

Placing Features Using Guidelines

Remember those guidelines you drew on the head? **Horizontal Line:** Eyes are usually placed on or slightly above this line. **Vertical Line:** Helps you center the nose and mouth. The nose typically sits halfway between the eye line and the bottom of the chin. The mouth is usually placed below the nose, closer to the chin.

Adding Expression

Happiness: Upward curved mouth, maybe squinted eyes. **Sadness:** Downward curved mouth, droopy eyes and eyebrows. **Anger:** Straight or downward angled eyebrows, tight lips or gritted teeth. **Surprise:** Wide-open eyes and mouth, raised eyebrows. **Fear:** Wide eyes, maybe a small, trembling mouth. Practice drawing these basic expressions. The way you draw the eyebrows and mouth will drastically change how your character feels.

Step 5: Hair and Details – The Finishing Touches

Hair is a fantastic way to add personality and style to your cartoon characters.

Cartoon Hair Styles

Simple Shapes: Think of hair as large masses. A spiky top, a curly mass, a smooth cap, a ponytail. **Lines for Texture:** Add a few lines within the hair mass to suggest strands or volume. **Exaggeration:** Wild, gravity-defying hair can be a lot of fun! **Accessories:** Hats, bows, headbands, glasses – these can all add character.

Clothing and Accessories **Simplify Clothing:** Don't get bogged down in intricate fabric folds. Draw basic shapes for shirts, pants, dresses. **Add Personality:** A superhero cape? A chef's hat? A fancy dress? This helps define who your character is. **Shoes:** As mentioned before, shoes can say a lot! **Other Details:** Buttons, belts, pockets, jewelry. Keep them simple and consistent with the character's style.

Step 6: Refine and Ink (Optional)

Once you're happy with your pencil sketch, you can go over your lines with a pen or marker. 1. **Clean Up:** Erase any stray pencil lines you don't need. 2. **Ink the Lines:** Use a fine-liner pen to trace over your clean lines. You can vary the line weight (thicker lines for outlines, thinner for details) to add depth. 3. **Add Shading (Optional):** If you want to add depth, you can use simple shading techniques. Hatching (parallel lines) or cross-hatching (overlapping parallel lines) are great for beginners. You can also use a darker pencil or marker.

Tips for Drawing Better Cartoon People

Practice, Practice, Practice: This is the golden rule! The more you draw, the more comfortable you'll become. **Observe Real People:** Look at how people stand, walk, and express themselves. Even if you're simplifying, real-world observation is invaluable. **Study Other Cartoons:** Analyze your favorite cartoon characters. How are their features drawn? What makes them unique? **Don't Be Afraid to Exaggerate:** Cartoons thrive on exaggeration. Push those features and proportions! **Focus on Expression:** A character with a strong expression is more engaging than a technically perfect but bland one. **Experiment with Different Styles:** There's no single "right" way to draw cartoons. Explore different approaches. **Have Fun!** If you're not enjoying it, it will show in your drawings.

Common Beginner Mistakes to Avoid

Stiff Poses: Always try to add some bend to limbs. **Static Faces:** Ensure your characters have clear expressions. **Overly Detailed Features:** Remember, simplification is key in cartooning. **Ignoring Guidelines:** While you can break rules once you're comfortable, guidelines are crucial for beginners to achieve balance. **Giving Up Too Soon:** Every artist has rough drawings. Keep going!

Okay, let's put it all into practice. We'll draw a simple, happy character. 1. **Head:** Draw a circle with a slightly rounded chin. Add your center vertical and horizontal guidelines. 2. **Eyes:** Place two simple dots or small circles on the horizontal guideline. A little bit apart. 3. **Eyebrows:** Draw two curved lines above the eyes, arching upwards, for a happy look. 4. **Nose:** A tiny dot or a small curve placed below the eye line, centered on the vertical line. 5. **Mouth:** Draw an upward-curving line below the nose. Make it a nice, broad smile. 6. **Body:** Below the head, draw a simple oval for the torso. 7. **Neck:** A short, thick line connecting the head to the torso. 8. **Shoulders:** Two gentle curves extending from the top of the oval. 9. **Arms:** Draw two slightly bent lines for arms, extending from the shoulders. At the end, draw simple mitten-like shapes for hands. 10. **Legs:** Draw two bent lines for legs, coming from the bottom of the torso. How to Draw Cartoon People Step by Step for Beginners Drawing cartoon people is a creative and rewarding skill that opens doors to storytelling, illustration, and character design. For beginners, the process might seem daunting at first, but with a few foundational steps and consistent practice, anyone can bring expressive, lively characters to life on paper. Whether you're creating characters for stories, comic books, or animations, understanding how to draw cartoon people step by step is essential to developing your artistic voice. At the heart of cartoon character design lies simplicity and exaggeration. Unlike realism, cartoons thrive on bold shapes, clear features, and expressive proportions. The key insight is to focus on capturing the essence of a person's personality through stylized forms rather than strict anatomical accuracy. Beginners often start by breaking down the human figure into basic geometric shapes—circles, ovals, rectangles, and triangles—which serve as a flexible guide for building proportional, balanced characters. This approach not only makes drawing more approachable but also ensures consistency across different poses and expressions. To begin, sketch a simple head shape—commonly an oval or circle—to anchor the face. From this foundation, add guiding lines that help position the eyes, nose, and mouth in harmonious alignment. The eyes, often large and expressive, set the emotional tone, while the mouth conveys mood and personality. Positioning these features thoughtfully enhances the character's expressiveness, allowing viewers to instantly connect with their feelings. As you refine the face, consider the balance between simplicity and detail; too few lines create a flat look, while excessive detail can overwhelm a cartoon style. Next, build the body using basic shapes that reflect posture and movement. A stick figure outline can establish dynamic poses, making it easier to explore motion and energy. From this framework, define limbs and torso with clean, rounded lines that maintain a friendly, approachable feel. Cartoon figures often feature exaggerated proportions—long limbs, oversized heads, or comically small waists—enhancing their charm and readability. These stylistic choices transform ordinary figures into memorable, engaging characters. Facial expressions are critical in cartoon drawing, as they convey mood without relying on subtle realism. Experiment with varying the size and shape of eyes, the curve of the mouth, and the eyebrows to express joy, sadness, surprise, or mischief. Even small adjustments can dramatically alter a character's emotional impact. Pairing expressive faces with confident poses brings cartoon people to life, making them relatable and compelling. Beyond technical execution, drawing cartoon people offers profound creative benefits. It nurtures visual storytelling abilities, strengthens observational skills, and fosters confidence in artistic expression. For beginners, mastering this skill lays a solid foundation for more advanced illustration, animation, and character design. As digital tools and trends evolve, the demand for expressive, stylized characters continues to grow across media—from children's books and educational content to branding and social media. Looking ahead, the future of cartoon character design remains vibrant and ever-expanding. With increasing accessibility to digital drawing platforms and growing interest in diverse, inclusive storytelling, artists today have unprecedented opportunities to innovate. Learning to draw cartoon people step by step equips beginners not just with technique, but with the creative freedom to imagine and share unique worlds through their own visual voices. With patience, practice, and a passion for storytelling, anyone can join the enduring tradition of bringing cartoon characters to life.

Mastering the Art: A Beginner's Guide to Drawing Cartoon People

Step-by-Step

Ever dreamt of bringing your own characters to life, whether for a comic, animation, or just for fun? Drawing cartoon people might seem daunting at first, but with a structured approach and a little practice, even absolute beginners can achieve fantastic results. This comprehensive guide will walk you through the essential steps, breaking down the process into manageable chunks. We'll cover everything from basic shapes and proportions to adding personality and refining your work. Get ready to unlock your inner artist and start drawing cartoon characters with confidence!

Why Draw Cartoon People? The Allure of Simplified Forms

Cartooning, by its very nature, is about simplification and exaggeration. Unlike realistic drawing, which aims to capture every detail of the human form, cartooning focuses on conveying emotion, personality, and movement through bold lines and stylized features. This makes it an incredibly accessible and rewarding art form for beginners. It allows for creative freedom and a unique way to express ideas and stories. Whether you're interested in **character design**, **illustration**, or simply want to doodle your friends, learning to draw cartoon people is a valuable skill.

The Foundation: Understanding Basic Shapes

At its core, any complex form can be broken down into simpler geometric shapes. For cartoon people, this is your starting point. Think circles, ovals, squares, and rectangles. Mastering these building blocks will make drawing more complex poses and figures much easier.

Head Shapes: The Starting Point for Every Character

The head is often the most expressive part of a cartoon character. Beginners often start with a simple circle or oval. However, you can add variety by slightly altering these shapes:

1. **Oval Heads:** A classic choice, easily adaptable for both male and female characters.
2. **Round Heads:** Convey a sense of youthfulness or a friendly demeanor.
3. **Square/Rectangular Heads:** Can suggest a more stoic, strong, or even grumpy character.
4. **Heart-Shaped Heads:** Often used for sweeter, more feminine characters.

Don't be afraid to experiment! The beauty of cartooning is its flexibility. Think about the personality you want to convey and choose a head shape that complements it. We'll delve deeper into facial features later, but for now, focus on establishing a solid head shape.

The Torso: Building the Body's Core

Once you have a head, you need a body. For cartoon characters, the torso is typically much simpler than in realistic drawing. Think of it as a series of connected shapes:

1. **Trapezoid:** A wide top tapering down to a narrower bottom is common for a V-shaped torso, often used for athletic or more masculine figures.
2. **Rectangle/Box:** A simpler, more rounded rectangular shape can work for various body types, especially for younger characters or those with a more casual build.
3. **Pear Shape:** A wider bottom than the top can be used for more rounded or feminine characters.

Remember to consider the character's posture. A hunched-over character will have a different torso shape than one

standing tall and proud.

Proportions: Getting the Balance Right

While cartoon proportions are often exaggerated, they still need to feel balanced and visually appealing. Beginners often struggle with making their characters look "right." Here's a simplified approach:

Head-to-Body Ratio: The Golden Rule of Cartoon Figures

In realistic drawing, there are standard head-to-body ratios. For cartoons, these are often looser, but a good starting point for adult characters is around 3-4 heads tall. For younger characters or chibi styles, you might even go as low as 1-2 heads tall. Here's a general guideline:

1. **Realistic (for cartoons):** 3-4 heads tall
2. **Younger/More Stylized:** 2-3 heads tall
3. **Chibi/Super-Deformed:** 1-2 heads tall

Experiment with these ratios to see what kind of character you create. A taller, leaner character will feel different from a shorter, more stout one, even with the same basic features.

Limb Length: Adding Movement and Personality

Cartoon limbs are also subject to exaggeration. Arms and legs can be longer or shorter than realistic proportions to emphasize certain traits:

1. **Long Limbs:** Can make a character appear lanky, energetic, or graceful.
2. **Short Limbs:** Can make a character appear more childlike, sturdy, or comical.

The joints (shoulders, elbows, hips, knees) are crucial. Think of them as simple circles or ovals connecting the segments of the limbs.

Step-by-Step Drawing Process for Beginners

Now, let's put it all together. We'll use a common method of building the figure from basic shapes. This is a fundamental technique for **figure drawing** and incredibly useful for beginners.

Step 1: The Gesture and Basic Shapes

Start with a light pencil and sketch a simple gesture line to define the character's pose and flow. Then, lightly block in the basic shapes for the head, torso, and pelvis. Don't worry about perfection at this stage; it's all about establishing the overall form and balance.

Step 2: Adding the Limbs

Using simple lines and circles to represent the joints, sketch in the arms and legs. Think about how the character is standing or moving. Are their arms bent? Are their legs striding? Continue to keep these lines light.

Step 3: Refining the Forms and Adding Volume

Now, connect the basic shapes to create the actual form of the body. Think of the limbs as cylinders and the torso as a

more complex, stylized shape. Erase any overlapping lines that are no longer needed. This is where your character starts to take on a more solid appearance.

Step 4: The Head and Facial Features

This is where your character truly comes alive!

Drawing the Eyes: Windows to the Soul

Eyes are arguably the most important feature for conveying emotion. For beginners, start with simple shapes:

1. **Dots:** For very simple, minimalist characters.
2. **Ovals/Circles:** The classic cartoon eye.
3. **Dots with Pupils:** Add a small circle or dot for the pupil to give direction.
4. **Expressive Arcs:** Use curved lines to create happy, sad, or surprised expressions.

Pay attention to the spacing between the eyes and their placement on the head. Are they close together, suggesting a narrow gaze, or wide apart, indicating innocence?

The Mouth: Expressing Emotions

The mouth is another powerful tool for conveying emotion:

1. **Simple Line:** A straight line for a neutral expression, a curved line upwards for a smile, downwards for a frown.
2. **U-Shape/Arc:** For wide smiles or open mouths.
3. **O-Shape:** For surprise or shouting.

Nose and Other Features

Noses in cartoons can be as simple as a dot, a small curve, or a more stylized shape. Ears are often simplified circles or arcs attached to the side of the head. Eyebrows are crucial for adding personality and can be thick, thin, arched, or straight.

Step 5: Hands and Feet: The Final Touches

Hands and feet can be tricky, but cartoon versions are often simplified. For beginners, consider:

1. **Mittens:** For very simple, cartoony characters where individual fingers aren't necessary.
2. **Simple Gloves:** Representing the basic shape of a hand with a few lines for fingers.
3. **Basic Shapes for Fingers:** Draw simple sausage shapes for fingers and a thumb.

Feet can range from simple blocks to more stylized shapes that match the character's overall design.

Step 6: Hair and Clothing

Hair can be a great way to add individuality. Think about how hair flows and moves. Clothing can be drawn as simple shapes that follow the form of the body. Don't get bogged down in intricate details; focus on the overall silhouette and how the clothes contribute to the character's personality.

Step 7: Inking and Refinement

Once you're happy with your pencil sketch, you can go over your lines with a pen or darker pencil to define your drawing.

Erase any remaining construction lines. This is also a good time to add any final details or shading.

Adding Personality and Expression

Drawing cartoon people is not just about lines and shapes; it's about telling a story and conveying emotion. Here's how to inject personality into your characters:

Exaggeration is Key

Don't be afraid to exaggerate features. Big eyes can make a character look innocent or surprised. A large nose can make them look quirky. A strong jawline can suggest determination. The more you exaggerate, the more cartoonish and memorable your character will become.

Think About Their Story

What is your character like? Are they happy, sad, angry, shy, brave? Their personality should be reflected in their pose, facial expressions, and even their clothing choices. A timid character might be drawn hunched over, while a confident one stands tall.

Using Line Weight and Shading

Varying the thickness of your lines can add depth and visual interest. Thicker lines can define the outer edges of a form, while thinner lines can be used for internal details. Simple shading can also bring your character to life, giving them a sense of volume and dimension. Even basic cell shading can make a big difference.

Practice, Practice, Practice!

Like any skill, drawing cartoon people improves with consistent practice. Don't be discouraged if your first attempts aren't perfect. Every drawing is a learning opportunity. Try drawing the same character in different poses, expressions, and styles. Explore different **drawing techniques**. Watch tutorials and study the work of artists you admire. The more you draw, the more intuitive the process will become.

Resources for Further Learning

Questions & Answers About how to draw cartoon people step by step for beginners

No	Question	Answer
1	What are the absolute easiest shapes to start with when drawing cartoon people for the first time?	Circles and ovals are your best friends! Use circles for heads and ovals for bodies and limbs. These basic shapes are super forgiving and easy to manipulate.
2	How do I make my cartoon people look more 'cartoony' and less like stick figures?	Exaggeration is key! Make heads bigger, limbs shorter or longer, add expressive eyes, and simplify facial features. Think about giving them a distinct personality through their proportions.
3	Where's the best place to start – head or body?	Most beginners find it easiest to start with the head. Draw a circle or oval for the head, then attach the body below it. This helps with proportioning right from the start.
4	How can I draw simple arms and legs that look natural (for a cartoon)?	Think of arms and legs as simple tubes or sausages. Connect them to the body with slightly curved lines. You can add simple circles or ovals for hands and feet, or even just rounded off shapes.
5	What's a good way to add hair to cartoon characters without it looking messy?	Keep it simple and stylized! Draw a few large, flowing shapes around the head rather than individual strands. Think of it as a 'hair helmet' that complements the character's head shape.
6	How do I draw eyes that show emotion in cartoons?	Eyes are the window to the soul, even in cartoons! Experiment with different shapes: big and round for surprise, narrow slits for anger, or gentle curves for happiness. Adding pupils and highlights makes them pop.
7	I struggle with poses. What's a simple method to get cartoon characters into dynamic positions?	Start with a 'stick figure' pose using simple lines for the body and limbs. Then, thicken those lines with basic shapes. This 'skeleton' approach helps you visualize movement before adding detail.
8	How can I draw a basic cartoon nose and mouth that fit the face?	For noses, a simple dot, triangle, or curved line often works best. For mouths, a simple curve upwards for a smile, downwards for a frown, or a straight line for a neutral expression is a great starting point.
9	What are some common mistakes beginners make when drawing cartoon people, and how can I avoid them?	A common mistake is drawing limbs too thin or without enough connection. Another is making facial features too small or too close together. Always check proportions and space out features evenly. Don't be afraid to erase and redraw!
